Smartping: In the Era of **Connected Consumerism**

Smartping - Enabling Effective Unified Communication at Scale

Smartping is a leading **UCaaS (Unified Communication as a Service) platform** that empowers pan-Indian businesses with scalable multi-channel communication services.

Founded in 2015

2500+ Customers Pan-India

**Experienced Telco Consultants
and Support Professionals**

**100Bn+ Messages Transacted
Annually**

**Secure and Transparent CPaaS
Suite**

**Proprietary SMS Scrubbing
Platform**

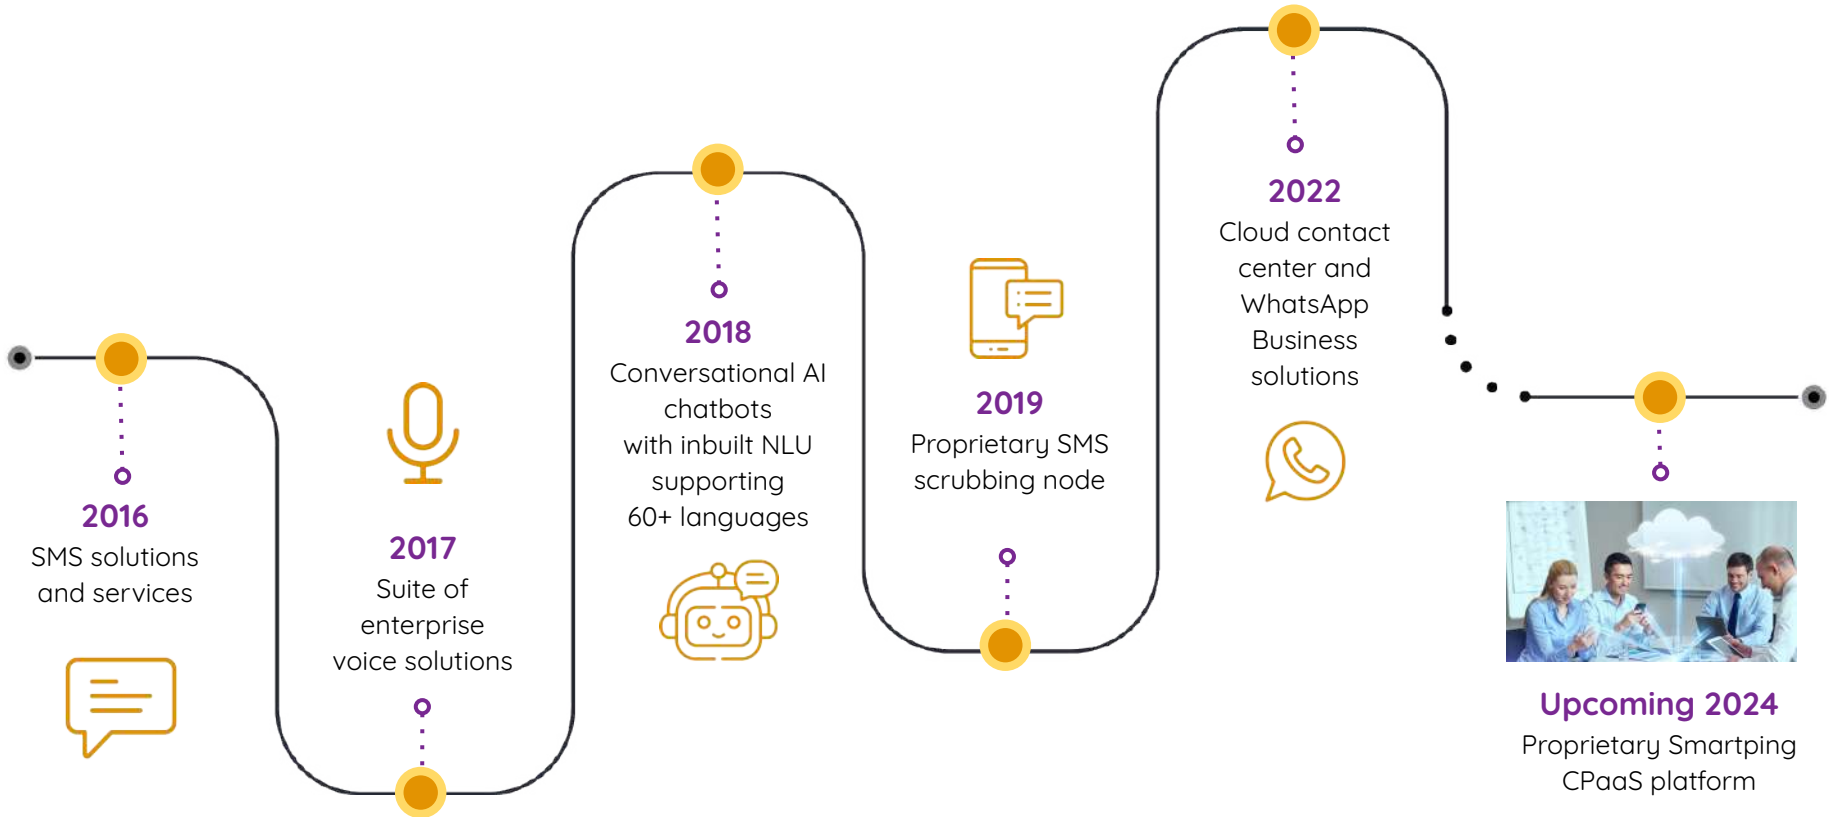

Our vision is to be a **unified communications leader** and provide Indian businesses with a comprehensive set of communication services, fostering connectivity across diverse channels, and empowering businesses in building lasting customer relationships.

Our Journey

The New-age Digital Customer is **More Connected Than Ever**

Businesses traditionally perceive customer journeys as a linear sequence of touchpoints through a single digital channel. However, the current reality presents a different landscape.

Here's what your customers want:

- ▶ Seamless communication on the channels they prefer
- ▶ Tailored, personalized interactions that resonate with their preferences
- ▶ Offerings that solve their problems and enhance their lives
- ▶ Swift resolutions to their queries and issues
- ▶ Engaging experiences that go beyond transactional interactions

Multi-channel Communication

An Opportunity for Enterprises

The digital era presents enterprises with a unique opportunity to **connect with their customers across multiple platforms**

Customer engagement at scale

Connecting millions of customers effortlessly across multiple communication channels

Integrating real-time communication channels

Incorporating channels such as audio, video, chatbots, chat apps, etc. to interact with customers

Seamless multi-channel marketing communication

Implementing a unified communications platform to deliver consistent brand experiences across channels

Building connections with digital customers

Fostering meaningful interactions with digital customers by offering personalized experiences and value-added services

Our UCaaS Framework

Connecting Brands and Customers Seamlessly

Brands

- ▶ Connected communication ecosystem
- ▶ Consistent multi-channel messaging
- ▶ Improved customer retention and satisfaction

Technology Infrastructure

- ▶ Programmable API-driven implementation
- ▶ Easy-to-access cloud platform
- ▶ Telco-grade secure connectivity

Customers

- ▶ Interactive experiences
- ▶ Hyper-personalization
- ▶ Unmatched convenience

Ahead of the Curve

The Smartping Difference

smart
ping

Consultative Approach

- ▶ Customized multi-channel strategies for unique business needs

The next-generation of messaging and customer communication

**Upcoming in Q2, 2024*

The background is a photograph of four call center agents (three men and one woman) sitting at their desks, smiling and working on their laptops. The image is overlaid with a solid purple color. On the left side, there are white geometric line patterns, including a large triangle and several intersecting lines. A solid yellow triangle is positioned in the lower-left quadrant, partially overlapping the purple overlay and the background image.
